## PERSONAL PROFILE

---

As a second-year BSc Computer Science student at City University, I am passionate about web development and creating responsive, user-friendly applications. Recently, I have also begun exploring artificial intelligence and its potential in modern technology. My goal is to combine these interests to design impactful applications and solve challenging problems, building a strong foundation for a successful career in software engineering.

## EDUCATION

---

**City St George's, University of London**

**London**

*BSc (Hons) Computer Science*

*Graduation Date: May 2026*

## WORK EXPERIENCE

---

**London, Private tutor**

**London**

*Private Tutor*

*Sep 2023 - Feb 2024*

- Delivered A-level mathematics lessons to 3 Year 13 students.
- Provided tutoring for 2 Year 7 students in foundational subjects.
- Tailored teaching methods to suit diverse learning styles.
- Demonstrated ability to improve academic performance and boost student confidence.

**TPXImpact**

**London**

*Placement Participant*

*Aug 2022 - Aug 2022*

- Acquired an introduction to front-end coding languages HTML, CSS, and JavaScript.
- Collaborated with other participants to complete a website development project, in which I contributed by adding a menu bar and interactable buttons.
- Developed a solid understanding of HTML basics through hands-on experience and project.
- Participated in a mock interview with the recruiting team, honing professional communication and gained insights into the professional environment.

## PROJECT EXPERIENCE

---

**Movie Review app**

**London**

*application developer*

- **Developed** a movie app that fetches data from TMDb API, displaying 20 movie posters, titles, and details.
- **Implemented** key features: search functionality, pagination, dark/light mode toggle, and movie sorting.
- **Built** a review system and favourites list with persistence using local storage.
- **Technologies/Skills:** React, Axios, Router, Local Storage, API integration.

**Imperial College London**

**London**

*Participant*

- **Collaborated** in a team of 6 to create a website connecting volunteer dentists with underserved communities in Pakistan.
- **Developed** core sections like navigation, 'about', 'dentist login', and 'admin login' using HTML and CSS.
- **Implemented** functionality for dentists to input patient information and access records.
- **Technologies/Skills:** HTML, CSS, Web Design, Form Handling, Team Collaboration.

## TECHNICAL SKILLS

---

**Programming Languages:** Java, Python, C++, SQL, JavaScript, HTML, CSS

**Frameworks:** React

**Developer Tools:** Git, VS Code, IntelliJ, figma
